 Vijayawada, India

Career Objective

Highly skilled Software Testing professional with a proven track record of delivering successful software applications through comprehensive testing strategies. Experienced in identifying and resolving critical defects, implementing automated testing frameworks, and mentoring junior testers.

Professional Summary

- Around 3+ years of IT experience in Python Development, Automation Testing, and Manual Testing.
- Experience in Sanity Testing and Regression Testing using ABS builds.
- Hands-on experience in Python, pyATS automation development and Object-Oriented Programming.
- Experience working with pytest framework for automation testing.
- Experience working with LAN/WAN networks, WLCs, Access Points, Switches, Wired and Wireless clients.
- Strong experience with communication protocols such as SNMP, TCP/IP, SSH, Telnet.
- Experience analyzing topology, scripts, configurations and YAML jobs used by solution sanity.
- Hands-on experience in Linux shell commands.
- Experience writing and maintaining test cases based on business requirements.
- Strong troubleshooting skills in RF and LAN networking environments.

Technical Skills

- Python
- Networking (L2 & L3)
- MySQL

Automation Frameworks

- pyATS
- pytest

Networking

- TCP/IP
- LAN/WAN
- VLAN
- VPN
- DNS
- DHCP
- FTP
- HTTP
- CLI / Command Line
- WiFi Testing & Security
- Testing Wireless Security types WEP, WPA, WPA2, WPA3 (Open, PSK, Enterprise)
- Knowledge of IEEE 802.11 WLAN protocols and standards
- 802.11a
- 802.11b
- 802.11g
- 802.11n
- 802.11ac
- 802.11ax
- WiFi-6E
- 802.11d, h, i, k, v, r
- Development of test plans for WiFi products based on customer requirements
- Execution of WiFi test plans and reporting results
- WiFi performance testing using tools such as iperf and video streaming
- Analysis of new WiFi features and creating new test cases
- Debugging issues and performing PCAP analysis

Hardware

- Switches
- Firewalls
- Wireless Access Points
- Servers

Tools & Platforms

- Linux (CentOS)
- Docker
- VMware
- Jenkins
- Git / GitHub

Certifications

- Python Certification – Try Logic Soft Solutions
- CCNA (Cisco Certified Network Associate)

Education

Bachelor of Technology (B.Tech) – Computer Science Jawaharlal Nehru Technological University Kakinada (JNTUK) – 2021

Professional Experience

Test Engineer – HCL Technologies

 July 2022 – Present

Project 1: NON-Fabric Sanity

Client: Cisco

Duration: Jan 2023 – Aug 2023

Technologies: Python, Linux, Networking, Jenkins, REST API

Responsibilities:

- Executed scripts for different device platforms.
- Imported software images from DNAC and configured devices.
- Analyzed user stories and prepared test plans.
- Performed Regression, Sanity, and Manual testing.
- Automated UI features using Python.
- Verified device upgrade and telemetry subscriptions.
- Delivered weekly demos to clients.

Project 2: SNMP Automation

Client: Cisco

Duration: Aug 2023 – Feb 2024

Technologies: Python, Linux, SNMP, pyATS

Responsibilities:

- Developed Python automation test logic for SNMP MIB validation.
- Created test cases for OID validation.
- Automated SNMP MIB testing using pyATS.
- Managed source code using Git.
- Handled P1 and P2 issues.
- Participated in daily stand-ups and customer meetings.

Project 3: Wireless Baseline Integrity Testing

- Designed and executed functional test cases for controllers and access points.
- Performed large-scale regression testing for each build release.
- Reviewed and executed Python scripts in regression testbeds.
- Collaborated with developers to analyze and resolve defects.

Personal Details

Name: N. Yasoda Pallavi

Gender: Female

Nationality: Indian

Email: softwarepallavi9@gmail.com

Phone: +91-6305234671

Declaration

I hereby declare that the above particulars are true and correct to the best of my knowledge.
